HDF-W22

22,000 lumens, WUXGA, 3-chip DLP projector

The ultra-bright and reliable HDF-W22 projector is a perfect fit for any large venue or event that requires extra brightness to show clear, crisp images in a brightly lit environment.

Reliable and powerful projection

With a light output of 22,000 lumens, the HDF-W22 displays superior images even in venues with lots of ambient light. Thanks to its 3-chip DLP technology, Xenon illumination and high-contrast optical engine, the HDF guarantees crisp images with rich colors on every occasion. What's more, it is fully ready to support 3D projection. It has also been equipped with Barco's high-end **ImagePRO technology with Athena scaler** for flexible scaling.

Wireless control and preview mode

In addition, the versatile HDF-W22 offers extended wireless control features via smart phone or tablet computer. The HDF-W22's built-in color LCD screen provides all the information you need on your projector's status and allows you to preview your connected sources.

Designed for rental and staging

Building on Barco's experience in the rental and staging market with the proven FLM family, the HDF has been designed with the road in mind. Its compact and modular design make it simple to install and service. Equipped with a top or bottom frame, the rugged projector can easily be rigged as well.

Fast signal distribution

Our proprietary BarcoLink technology guarantees swift signal distribution between Barco's projectors and image processors. With BarcoLink, signals are distributed over a BNC coax cable, which is not only more durable but also enables you to lower your costs.
